DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, drawn to a label, classified in class 283, subclass 81.
 - II. Claims 5 and 6, drawn to a method of manufacturing a label, classified in class 493, subclass 379.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case 1) the process as claimed can be used to make other and materially different product such as a label having two plies, and 2) the product as claimed can be made by another and materially different process such as one including the steps of providing a ply having a front surface and a bottom surface; and selectively printing the front surface only without adding a second ply and/or provided with an adhesive coating.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the search required for Group I is not required for Group II, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Walter Roloff on November 15, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3721

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Louis K. Huynh whose telephone number is (703) 306-5694. The examiner can normally be reached on M-F from 9:30AM to 5:00PM.
